

33rd Conference Euro Denmark Copenhagen 30 June-3 July 2024

Dear colleague,

We are glad to invite you to the **33rd Conference of the European Federation of Operational Research Societies (EURO)** in Denmark Copenhagen 30 June-3 July 2024

29 June Saturday afternoon 2-5- pm we have the satellite/special event for joining contact detombe@nosmo.nl

<https://euro2024cph.dk> to the session of **Societal Complexity and Ethics** chaired by Prof. Dr Dorien De Tombe

Submission deadline for abstracts is **3 March 2024**.

For sending the abstract go to <https://euro2024cph.dk>

then to **submission & registration** select **Abstract Submission**

The abstract submission process is done through the EURO Online. Click [HERE](#) to get access. The deadline for abstract submission is Sunday March 3, 2024 at hrs. 23:59 CET.

Then you find again the words **Abstract Submission** at the same page select **Abstract in an organized session:**

To submit an abstract in an organized session, please enter your submission code below:

code 7ce04a33 and enter your name, registrate and put in your abstract (1500 characters).

Later you will hear whether the abstract is accepted

About the subject:

Societal Complexity and Ethics

Ethics and Methodology of Societal Complexity focuses on methodologies, methods and tools for analyzing, structuring, guiding and evaluating on an ethical complex societal problems. Complex societal problems are often policy problems that can occur in many fields, like in the Agro-industry

(water ground and air pollution, fowl and chicken plague), in the Transportation sector, in Healthcare sector (Malaria, HIV/Aids, Flu and Corona Pandemic), in Water affairs and in Economy (credit crisis). The field focuses on handling local safety problems like large city issues and natural disasters as flood and hurricanes and global safety problems like war, pandemics and terrorism. Although many of these issues have different causes, they have so much in common that they can be approached for handling the policy in the same way by using the Compram methodology, a methodology based on the use of experts and actors and the voice of the people in a democratic way.

Complex societal problems, as such, are unstructured, dynamical, constantly changing and have a large impact on society on macro, meso and micro level. Handling complex societal problems needs a special multi-disciplinary approach. The content knowledge comes from content experts. The process knowledge comes from facilitators. The power is in the hand of actors. The attention of the research of *Methodology of Societal Complexity* is on the methods and tools facilitators need for guiding these kinds of problems. The facilitators use methodologies specially created for the field of societal problems combined with methods and insights derived from fields like medicine, law, economics, societal sciences, methodology, mathematics, computer sciences, technology, engineering sciences, socio-cybernetic, chaos theory and operational research combined with content knowledge. Often a combination of methods is needed as is prescribed by the Compram methodology for handling complex societal problems.

We prefer to get research focusing methodology for handling complex ethical problems.

Key dates and Deadlines

Please note following deadlines:

• <i>Abstract submission opens:</i>	<i>Sunday, 1st October 2023</i>
• <i>Registration opens:</i>	<i>Sunday, 5th November 2023</i>
• <i>Abstract submission closes:</i>	<i>Sunday, 3rd March 2024 at hrs. 23:59 CET</i>
• <i>Early registration closes:</i>	<i>Sunday, 24th March 2024 at hrs. 23:59 CET</i>
• <i>Author registration deadline:</i>	<i>Sunday, 21th April 2024 at hrs. 23:59 CET</i>

Hope to see you there all in good health,

Prof. Dr Dorien De Tombe
